

Achievements

- Tidied and cleaned
- Implemented ward-round
- On the job training
- Good theatre practice
- Identified staff

Did it work?

And then

- Further 2 sets of Malawian nurses in Kirkcaldy
- 1 further set of Fife staff to Malawi
- Scrubbing in theatre, assisting on ward
- Learning from both senior and Junior nurses here
- Next Fife Team out tomorrow!
 - Nurse specialist, Nursing Auxiliary, Consultant
 - Our 4th visit

- Emily our latest “Graduate”
- 400 hours
- Logbook filled in
- Tutor from the Fife staff

Other Projects in Place

- Whatsapp
 - NHS Fife and others in UK
 - Difficult cases
- MTI
 - Helped support Malawian Surgeon Visit to Scotland
 - Assisted by College in Glasgow
- Growing network in UK for them
 - Kirkcaldy
 - Bradford
 - Leicester

Our Team Now

- NHS Fife
- Sheffmed
- University of St Andrews
- ENT Scotland
- Bradford Royal Infirmary

SHEFFMED
BRITISH INNOVATION GLOBAL CONSCIENCE

Issues

- Identify what is needed/Equipment
- Appreciate the culture
- There needs to be ownership
- Money
- GMC/NMC

What is needed

- Not an easy answer
- Will be different in every case
- Not always what we think here
 - Tonsillectomy
- Not always the fancy stuff

Culture

- Do not assume that what we think will help can
 - Sending scopes which disappeared to private clinic
- Trained registrar did not get a job
 - ?? Politics ??
 - Now working in lorries
- Hospital in Blantyre have to sign declaration
 - Nurses will stay in ENT for definite period
 - Or they will be moved

Ownership

- Norwegian project works because there is a Norwegian there
- The nursing staff are our target “Owners”
- Must get the staff involved
 - Theatre teams banning the locals

Money

- Key question
- Need sponsorship
- Need fundraising
 - Gets the NHS Fife team involved
- Keep an eye on where it goes
 - Interesting requests

GMC/NMC

- Issue we didn't foresee
- Nurses not allowed to take part unless registered fully with NMC
- Defeat purpose and would encourage them to stay in UK
- St Andrews a great help
 - Registered as visiting scholars/students
 - Same access as our normal St Andrews students

Partners

- Team of partners useful
- St Andrews University Global Health Network
 - Set up Ungweru board with University
 - Charitable status through this
- ENT Scotland allows us access to Units across country

Future

- Need an aim
 - Train the nurses in the ENT unit
- Decide on when to stop
 - Or change focus

Ungweru

- Project is moving along
- Even if we stop now we've made a difference!

Make it a partnership
